IL PIEDE TEKNO-FIX

Il piede di livellamento "Tekno-Fix" è una linea di prodotto appositamente studiata per il mondo delle **Macchine Utensili, Bracci meccanici, Robot e Pallettizzatori** in generale. Le sue caratteristiche tecniche come il **filetto passo fine** e la possibilità di fissaggio a terra la rendono ideale per l'utilizzo con tali apparecchiature.

La Linea "Tekno-fix" è composta da:

1. Base Solida Tornita
2. Stelo Filettato Esagonale
3. Dado di regolazione

I materiali utilizzati per la creazione del Piede Variano dall'acciaio (zincato, verniciato, fosfatato) all'acciaio inossidabile adatto per contrastare le norme igieniche delle industrie alimentari.

Trattamenti:

Verniciatura Gialla Ral1007 (su richiesta colori differenti), Zincatura Elettrolitica, Fosfatazione.

THE TEKNO-FIX FOOT

The "Tekno-Fix" levelling foot is a product line specially designed for the world of **Machine Tools, Mechanical Arms, Robots and Palletizers** in general. Its technical characteristics such as **The fine thread pitch** and the possibility of Ground fixing make it ideal for use with such equipment.

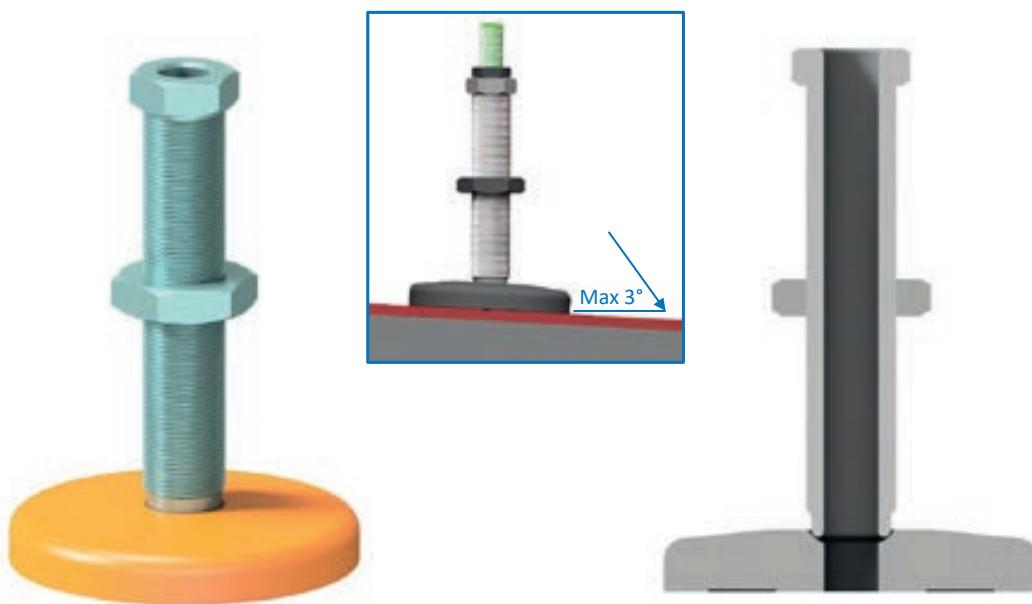

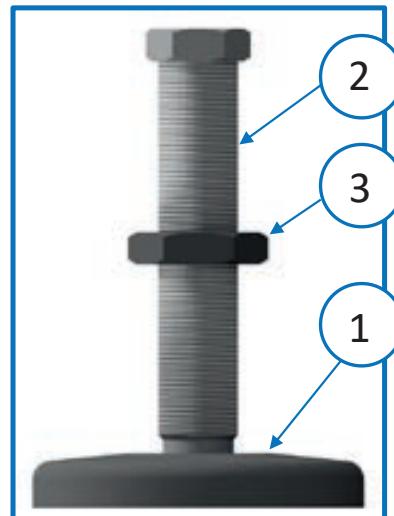

The "Tekno-fix" Line consists of:

1. Solid Turned Base
2. Hexagonal Threaded Stem
3. Adjusting nut

The materials used for the creation of the Foot They vary from steel (galvanized, painted, phosphating) to stainless steel suitable for countering the hygiene standards of the food industries.

Treatments:

Yellow painting Ral1007 (different colours on request), Electrolytic galvanizing, Phosphating.

COME USARE TEKNO-FIX

FIGURA 1

Posizionare Il Piede di Livellamento Tekno-fix nel luogo prestabilito per l'utilizzo del proprio macchinario.

FIGURA 2

Quando il piede di livellamento e il macchinario sono nella posizione corretta eseguire la foratura nel pavimento tramite il foro passante tra stelo e base.

FIGURA 3

Successivamente è opportuno inserire un perno filettato da fissare con resina o Fischer.

FIGURA 4

Infine si ottiene un piede di livellamento completamente fisso al suolo, privo di fori a vista, con la possibilità di regolarlo in altezza.

FIGURA 1

HOW TO USE TEKNO-FIX

FIGURA 1

Place the Tekno-fix Levelling Foot in the designated location for the use of your machine.

FIGURA 2

When the levelling foot and the machine are in the correct position, drill the hole in the floor.

FIGURA 3

Then it is advisable to insert a threaded pin to completely fix the levelling foot with glue or Fischer.

FIGURA 4

Finally, a levelling foot completely fixed to the ground is obtained, with no visible holes, with the possibility of adjusting it in height.
